

Brisbane Ranges National Park

Plant List

The Brisbane Ranges is particularly noted for its wildflowers, with about 700 plant species occurring. Many are either rare or remote from their normal localities, including the *Grevillea steiglitziana* (Brisbane Ranges Grevillea) which is only found along the Rowsley fault; *Olearia pannosa subsp. cardiophylla* (Velvet Daisy Bush) is rare and only found in scattered locations around the state; *Grevillea chysophaea* (Golden Grevillea) is only found in the Ranges and Gippsland. In the spring, magnificent displays of Wattles, Hakeas and Bush Peas bloom as well as a variety of Orchids.
