Hobsons Bay
CITY BAND

A brief history...

The Hobsons Bay City Band is a growing community-based, non-profit organisation based in the City of Hobsons Bay.

Originally, the band rehearsed in the City of Wyndham where, in September 1996, it was registered and performed as the Wyndham Symphonic Band Incorporated (WSB). From here the band rapidly grew from a small group of musicians into a band of over 20 producing a strong, clear sound.

March 1999 saw the band move rehearsals to St. Paul's College, Altona North, and thus entering into the City of Hobsons Bay. Around the time of the change to St. Paul's College, the Hobsons Bay City Council considered the lack of local bands in the area and began a search for a band to fit the role.

The former WSB won this bid and in 2000, it was appointed as the 'official' band for the City of Hobsons Bay. This appointment saw a change of name and uniform and increased support from the Council.

About the band...

The band's musical repertoire covers a wide range of music and musical styles such as:

- Movie soundtracks
- TV-show themes
- Classical
- Big-band
- Contemporary
- Hymns
- Plus many more

The musical library is constantly being updated and new titles purchased to ensure the band has a selection of musical titles available to suit almost any situation or function.

The HBCB is an active part of the Community and performs at various functions and venues in the local area. Past performances include the Williamstown, Bayside, Laverton and Weerama Festivals; school fetes; Community markets and local shopping centres such as Werribee plaza. Also on the list are Carols by Candlelight at Werribee Park; the opening of the new wing at the Williamstown Hospital and meetings of the local Lions and Rotary Clubs.

The HBCB would like to invite musicians from all age groups and musical backgrounds to participate. Here they can expand their musical knowledge and appreciation whilst striving to achieve high standards in musical performance.

Membership offers the opportunity to participate on the Committee opening doors to not only share their enjoyment of music, but also gain management and communication skills.
