

CALL FOR FULL PAPERS & POSTERS

International Conference on Adaptive Science & Technology (ICAST'07)

10 - 12 December 2007, Accra, Ghana, West AFRICA

Advancement through innovation & education

Conference Website: <http://home.vicnet.net.au/~icastdn>

ICAST is a premier international multi-disciplinary multi-conference for researchers, industry professionals, investors, policy makers, academics, bureaucrats, administrators & anybody interested in advancement and its impacts on human life. It is also a venue for companies to showcase their products & service and for entrepreneurs to explore investment opportunities.

In 2007, ICAST will be held in Accra, the capital city of Ghana. Ghana is one of the most politically stable and hospitable countries along the western coast of Africa. It's a country of diversity. You are invited to submit papers of high quality to one or more of the conference divisions listed below and at the conference website. The technical program of ICAST 2007 will consist of several Technical Sessions, Symposia, Tutorials, Workshops, Design and Developers and a Student Program.

Your participation in ICAST 2007 is surely to be an enduring experience. It is an opportunity for you to experience the spectrum of opportunities available to you in Ghana, especially in terms of *investment*. It will be an experience that you will long remember with many benefits to your future technical knowledge and your preparations to enhance your business portfolio or your career and for embarking into the future of greater success. The organizing committee will be privileged to say *AKWAABA!* to you on 10 Dec 2007.

NEW: Selected papers will be published as special issues in international journals such as AJICT for papers in ICT and Asian Social Science for papers in arts, sociology, politics, culture, history, philosophy, economics, business, management, education, law, linguistics and psychology. We have also accepted invitations from Rivers Publishers, Denmark and IGI Global, USA to publish extended versions of selected papers as edited books. *Authors interested in any of these projects should indicate so at the time of their submissions.*
