

## Towns of Mid Gippsland

The Mid Gippsland Family History Society supports family history research in the 5000 square kilometre region around Morwell in the Latrobe Valley of Victoria. This is a region with five or so large towns and many smaller settlements. Many towns and localities have disappeared due to the vagaries of gold mining, forest reservation, dam construction or administrative whim and no longer appear on modern maps. In addition the names of some towns have changed since the 1800's. This listing covers both the modern and the forgotten towns.

You will also find the names of some trigonometric stations.

The list is broken into 5 parts:

[Central](#), around Morwell

[North East](#), towards Toongabbie

[North West](#), towards Moe and Willow Grove

[South East](#), towards Gormandale

[South West](#), towards Boolarra

We have used the map references of the RACV VicRoads Country Street Directory of Victoria, published by the Royal Automobile Club of Victoria (RACV) Ltd. This is widely available in Victoria.

In addition we have estimated the location of settlements on the Map Grid Australia, Zone 55. Most maps will show the MGA mapping coordinates.

Please note that the locations of settlements are approximate. In particular, settlements with the same name as trig or railway stations may be quite a distance from the station.

Please direct any suggestions or comments to the [Secretary](#). For more information, you can check <http://land.vic.gov.au> for a range of related information. Their [interactive map](#) is very handy.

## MGHFS Central Region
