

HAMLET

by William Shakespeare

Hamlet's beloved dad is dead, and it looks like his uncle Claudius had something to do with it. How come mum moved in with him so soon after dad's death? Was she part of the plot? Hamlet is young, full of passion, and very very angry with his new stepdad ... so nobody had better get in the way of his razor-sharp wit! Rage, weep and laugh with Hamlet and his scheming family!
