

The District Rebuilding East Timor Committee has organised a concert to raise funds to build a primary school in East Timor.

The entertainment will be provided by the world class Australian Army Band- Melbourne (AAB-M,) which is a concert band in contrast to a marching band usually associated with the army.

The AAB-M is considered one of the finest bands of their kind in the world & consists of 34 full time professional musicians who primarily operate as a concert band. The band is also capable of breaking down into smaller groups such as the big band, jazz ensemble, wood-wind quintet and fanfare team. The band is equally at home on the parade ground or in the concert hall and it is this versatility that sets them apart from other musical teams. From opera to rock to jazz, Tchaikovsky to Lloyd Webber, their flexibility is displayed every time they perform.
