

## GREETINGS FROM BUSAN

Just a quick update on the experiences of the GSE Team for inclusion in the District Newsletter.

We are all settling into life here in Busan and are at the end of week three. We are currently enjoying a few days on our own to explore the city and to do a little shopping.

We have all been treated to amazing hospitality by our Korean hosts and are keen to meet our new host families. We were a little unsure of ourselves at our last Rotary Club meeting which was predominantly made up of ex-patriates from countries like Germany and England and Koreans whose English was exceptional. The SAA's fines were a little steep by Australian standards however and members were fined 10,000 won which equates to \$15 AUD. Our presentation had to be adapted to English which threw Wesley out completely as he has managed to adapt his presentation completely to Korean, however the rest of us are still trying to get a handle on the language.

It has been great to be able to undertake vocational visits despite the language barrier and the difficulty in getting the answer to a question which can be a 10 minute exercise!

Till next week.....anyong haseo

See also the link to our website which we update when we can.
