

JANUARY IS ROTARY AWARENESS MONTH

The following may help get your project out there to the community. This was received on our chair@rotaryd9800.org and passed on for the information of all Rotarians.

Hello Gary,

Forgive me if you are the wrong person for this enquiry, I sourced this address through the website and find it rather difficult to actually find out who to contact about this.

I am a volunteer radio presenter on Mountain District Radio 3MDR 97.1FM, broadcasting from Emerald Vic in the Dandenong Ranges. I have a community based show every Friday from 10am until 1pm. The aim of my show is to give groups, individuals, non profit organisations, schools etc, my voice to promote for free, any events that they are organising or involved in that need to get "out there". I am trying desperately to become a receiver, preferably by email, automatically of any of these events so I can promote them on my show.

The station has a very wide coverage including the Ranges and its surrounding lowlands, Gippsland, all of the Peninsular from Melbourne to Mornington and beyond and just about every where else in between. We even have listeners who can pick us up overnight in Tasmania. So as you can see any event that Rotary needs community involvement in, I can help.

Would you be so kind as to direct this enquiry to the relevant person so I can do some good for you if possible, and save myself an enormous amount of work trying to gather this information from bits and pieces that I might stumble across?

Thankyou and kind regards,

Jackie George
