

District 9800, ' *Save Water, Save Lives*' is pleased to announce that it is holding a tank construction demonstration. Details are as follows:

TANK TYPE: An 'aqua-plate' steel tank with a plastic liner, produced in Western Australia, provided in kit form.

This type of tank is easily transported in containers and trucks to isolated areas anywhere in the world that has sea and road transport. These tanks can be erected by a team of volunteers with relative ease.

DEMONSTRATION DATE: Sunday, 18 September 2005

PLACE: 500 Sewells Road, MT COTTERELL 3024
(close to Werribee)

TIME: 10:30am

RSVP: petermcgrath@gotalk.net.au with names of those attending.

BBQ Lunch Provided

This is a wonderful opportunity for your Club or Cluster to get involved in an International project that provides clean drinking water to isolated areas in our region. (PNG, Tonga, Solomons, Kiribati, Samoa etc)
