YEAR	MODEL	BODY STYLE	BODY No.	ENGINE No.	REGO No.	CONDITION

Engine Number Location:

1923 to 1929 - located on the top surface of the cylinder block just above the water pump housing.
 1934 to 1950 - located on the cylinder head surface of the engine block, at the front passengers side.
 1950 and up - numerous different locations were used since 1950 - ask for specific details on your model.

Body Number Plate Location:

Various locations were used through the 20's 30's (see details below). Models from the early 40's upwards were standardised with the ID tag located under the bonnet on the passengers side of the firewall.
 Early 20's thru 1927 - located on the RH seat mounting close to the door. 1934 & early '35 - located under the front seat near the battery box.
 Mid '35 & up - various locations on the passengers side of the firewall under the bonnet.
