Wednesday, 20 February 2008,

The Principal  
School

Dear Principal,

**re – Model United Nations Assembly (MUNA), 18<sup>th</sup> – 20<sup>th</sup> April 2008**

As the District Chairman for the Model United Nations Assembly (MUNA) which is conducted each year by Rotary District 9820 I am inviting you to give two of your students, usually from year 11, a no-cost opportunity over a weekend that will broaden their awareness of the work of the UN and of the broad range of views held by member countries.

MUNA is a UN supported program that simulates the operation of the UN General Assembly. Participants must research and debate current issues being confronted by the UN from the viewpoint of the nation that they are nominated to represent. A brief explanation of the program is contained in the enclosed material.

More information on MUNA, including a small Powerpoint presentation and all necessary proforma, can also be found on the Rotary District website by selecting Youth Services and then the MUNA option.

Your local Rotary Club may already have contacted you or a member of your staff about this program. If this is not the case and you would like the opportunity for a team from your school to participate then please make contact with them. Club contact numbers can be obtained from the Rotary District 9820 website at [www.district9820.org/](http://www.district9820.org/)

MUNA can be a beneficial program not just for the two delegates who attend but also for their classmates who can also participate by helping the delegates to research the culture and attitudes of their nominated country and to help prepare their resource material and their presentations on the issues to be debated.

I am sure that you have two deserving students who would really benefit from this opportunity providing the relevant staff member pursues this opportunity on their behalf.

Yours sincerely,

*Ian Symons*
