Views expressed in the *Australian Humanist* are not necessarily those of the Council of Australian Humanist Societies.

Humanists and Humanism

Humanists try to lead ethical and responsible lives without reliance on belief in supernatural influences. They believe it is possible to build a more humane, democratic society using human capabilities, tempered by critical reason and a spirit of free enquiry. This open-ended, uncertain yet optimistic approach to living is called Humanism.

Well known Australian Humanists include Phillip Adams, Eva Cox, Bill Hayden, Philip Nitschke, Doug Everingham, Tim Flannery and the late Donald Horne.
