

Notice of Motion

I give notice that on the next day of sitting I will move that

“This house calls on the Minister for Water to investigate the conduct of the CEO of Goulburn Broken Catchment Management Authority in the light of the ‘no confidence’ motion recently passed by the Board of GBCMA in the then Chairman, Stephen Mills, because of his close association with the CEO and in the light of the CEO’s arrogant and ignorant stance in favour of decommissioning Lake Mokoan in spite of a soundly documented case being put by the Justice for the Broken Valley Group for a ‘Mini Lake Mokoan’ which addresses much sought after water savings whilst ensuring security of supply of water to irrigators, continuing flood protection for Benalla and protection of Aboriginal Heritage sites.”

Bill Sykes MP
Member for Benalla
