

Notice of Motion

I give notice that on the next day of sitting I will move that

“This house calls upon the Minister for Water to implement the Justice for the Broken Valley’s Mini Lake Mokoan proposal to ensure that there is a suitable body of water for my Nationals colleagues and I to practice our kayaking skills on so that we may successfully complete the Red Cross Murray River Marathon.

Further that the Minister endorses The Nationals proposal to direct recycled water from the Eastern Treatment Plant into the Yarra River to increase environmental flows and improve the quality of water so that when Parliament is sitting my Nationals colleagues and I can practice our kayaking skills on the Yarra and that our health is not put at risk as a result of the inevitable capsizes which I seem to be primarily responsible for.
