

A publication from Waverley Historical Society...

THEN AND NOW
A pictorial history of the Monash district.

Have you ever had the experience of noticing that something has changed - and then not being able to recall how it looked previously? Or wondered about how the various parts of the City of Monash you are so familiar with now came to be? This book is an attempt to satisfy your curiosity with some scenes and stories from yesteryear and today, assembled from the Waverley Historical Society collection. This was made possible through the commendable foresight of early members of Waverley Historical Society in taking photographs of buildings and views and also for collecting photos from years gone by.

Comprises 60 pages of Then & Now images in B&W and colour plus accompanying descriptive text.
