

Dr Anne Fowler

TRAINING IN THE CARE OF INJURED WILD REPTILES

Program

8.30 – 9.00 am	Registration
9.00 – 10.30 am	handling, housing, feeding
10.30 – 11.00 am	Morning tea
11.00 – 11.30	common presentations – lizards
11.30 – 12.30 pm	common presentations - turtles
12.30 – 1.30 pm	Lunch
1.30 – 2.00 pm	common presentations – frogs
2.00 – 2.30 pm	common presentations – snakes
2.30 – 3.30 pm	practical session – handling, examination, bandaging
3.30 – 4.00pm	Afternoon tea
4.00 – 5.00 pm	practical session - giving medication – by injections, by mouth, treating wounds, bandaging

Objective:

By the end of the day, the participant should have a good understanding of the housing and feeding requirements of the three common groups of reptiles seen. The practical sessions are designed to help gain confidence in handling and giving common treatments.
